
Roll of industrial marking tape

Reference : 15

Description :

Warning tape is available in a multitude of colors: white, yellow, blue, black, green, red, orange, striped yellow/black. Each color can have a specific meaning. The industrial brand adhesive roller is an excellent tool for 5S or Least Cost Management programs but also in work environments where forklifts come and go. The industrial adhesive signaling tape makes it possible to delimit specific areas such as corridors for pedestrians or trolleys, workspaces... Installation on the ground is quick and effective for a visual and rigorous appearance.

Benefits :

- Ideal for delimiting specific areas without work and at a lower cost!
- Industrial floor marking roller 33 metres long and 50 mm wide
- A multitude of colors available
- Easy maintenance and resistant to wheel pivoting due to its smooth surface
- Designed to withstand harsh environments
- Quick and efficient installation on the ground for a visual and rigorous appearance
