

Adhesive corners for floor marking

Reference : 21

Description :

Adhesive corners for structured and durable floor markings Adhesive corners for floor markings are the solution for ensuring organization and safety in your industrial environments. Ideal for indoor use, they provide clear and durable signage. Technical specifications:- Dimensions: 150 mm long x 50 mm wide (delivered in packs of 20)

- Qualities: Different adhesive qualities meet the requirements of your workshops to ensure the best possible adhesion of your markings. For optimal effectiveness, choose your adhesive corner according to your work environment (humid environment, floor type, etc.).
- Medium (0.40 mm thick): Ideal compromise between flexibility and durability.
- Reinforced (0.76 mm thick): Resistant to swiveling casters, suitable for new or renovated floors.
- Extra (0.84 mm thick): Designed for the most demanding environments, with tapered edges to reduce tripping hazards.
- Colors: 6 colors available for optimal visual identification.
- Material: Adhesive with non-slip coating to reduce slipping hazards.
- Easy application and replacement: Quick installation without the need for special tools, easy replacement if worn.

User benefits:- Ideal for 5S sites: Helps maintain clear and safe organization in workshops.

- Easy to install and replace: Simple to install and replace if damaged, unlike roll markings.
- Flexibility: Easier to handle than roll markings and can be easily repositioned or replaced.

Adhesive floor marking corners are the perfect tool for any company looking to improve the organization, safety, and efficiency of their workspaces. Whether for industrial, logistics, or commercial applications, these corners guarantee durable, strong, and easy-to-maintain markings. Create a safer and tidier work environment with our high-quality adhesive corners, suitable for all your floor marking needs.

Benefits :

- Reinforced adhesive corners perfectly adapted to smooth floors and harsh environments
- Resistant to frequent use or wheels
- 6 colors available for an ideal implementation of a 5S site
- Makes ground marking more flexible and less restrictive than rollers
- Easy installation and replacement if damaged area
