## Adhesive edges for floor marking

*Reference : 22*

---

### Description :

Adhesive edges for structured and durable floor markings Adhesive edges for floor markings are the ideal solution for ensuring precise, durable, and safe markings in your workspaces. Technical specifications:- Dimensions: 150 mm long x 50 mm wide (delivered in packs of 20)

- Qualities: Different adhesive qualities meet the requirements of your workshops to ensure the best possible adhesion of your markings. For optimal effectiveness, choose your adhesive edge according to your work environment (humid environment, floor type, etc.).
- Medium (0.40 mm thick): Ideal compromise between flexibility and durability.
- Reinforced (0.76 mm thick): Resistant to swiveling casters, suitable for new or renovated floors.
- Extra (0.84 mm thick): Designed for the most demanding environments, with tapered edges to reduce tripping hazards.

Colors: 6 colors available for optimal visual identification

- Material: Adhesive with non-slip coating to reduce the risk of slipping
- Easy application and replacement: Quick installation without the need for special tools, easy replacement if worn.

User benefits:- Organization optimization (5S method): These adhesive edges are ideal for implementing a visual management method such as 5S, facilitating the clear delineation of work areas, aisles, and storage spaces.

- Durability and strength: Designed to withstand intensive use, these adhesive edges are reinforced to withstand repetitive machine traffic and frequent movements of rolling stock, while maintaining their performance and appearance.
- Improved corporate image: Providing a clean and professional appearance, these adhesive edges help create an orderly and safe atmosphere in your production facilities. Their presence contributes to the image of a modern company that respects safety and organizational standards.

Adhesive floor marking edges are much more than just a marking accessory. They are an essential element of your safety and organizational strategy, while offering a durable and visually appealing solution for your industrial environment. Available in 6 colors, they allow you to customize floor markings according to your needs and internal standards. Adopt these adhesive edges to improve safety and efficiency in your production facilities. Order now and benefit from a simple, effective, and robust solution for optimal floor marking in your company.

---
