
Adhesive edges for floor marking

Reference : 22

Description :

Reinforced adhesive edges for floor marking are sold in packs of 20. These adhesive edges are reinforced, i.e. they adapt particularly well to smooth floors and harsh environments. In addition, they benefit from optimal resistance to the many passages and pivoting of rollers that can occur in industry. They have a size of 150 mm in length by 50 mm in width and are available in 6 colors: white, yellow, blue, black, green, red. These adhesive edges are an excellent choice for setting up a 5S site in your company, they also offer an orderly and reassuring image in production workshops.

Benefits :

- The reinforced adhesive edges are perfectly adapted to smooth floors and harsh environments
- Resistant to frequent use or wheels
- 6 colors available for an ideal implementation of a 5S site
- Makes ground marking more flexible and less restrictive than rollers
- Easy installation and replacement if damaged area
- Sold in batches of 20, they have a size of 150 mm long by 50 mm wide
