

Ergonomic anti-fatigue matting | ANTI-FATIGUE MATTING CLASSIC

Reference : 52

Description :

- Made from tough SBR/NBR rubber for application in most climatic conditions.
- Excellent non-slip properties meeting standard EN 13552, category R10.
- Circular embossed pattern provides good grip while effectively eliminating dirt and humidity.
- The moulded bevel edges facilitate the entry of wheeled vehicles and avoid tripping up pedestrians.
- Thickness: 14 mm

Benefits :

- Manufactured from SBR/NBR resistant rubber, it is resistant to most chemicals and extreme temperatures.
- Conforms to Slip Resistance Test EN 13552, category R10.
- Circular hole pattern structure ensures adhesion and allows easy cleaning.
- Its non-slip flat border prevents falling and enhances safety .
- Ideal for all activities require prolonged standing position.

Technical specifications :

Product Name	Ergonomic anti-fatigue matting ANTI-FATIGUE MATTING CLASSIC
SKU	52
Weight (kg)	1.000000
Application	Assemblage, Atelier, Ergonomie, Industrie, Lean Manufacturing, Production
