

## Ergonomic Anti-fatigue Matting | ANTI-FATIGUE MATTING PORTABLE

Reference : 56

### Description :

Ideal for all those uncomfortable tasks that require kneeling. The mat reduces pain in the knees and lower back strain caused by frequently adopting the kneeling position. - With carrying handle

- Made from a mixture of closed cell PVC / nitrile
- Oil and chemical resistant
- Thickness: 25 mm

### Benefits :

- Ideal subknee for those who perform work on their knees.
- Reduces knee pain and the load on the lower parts of the spine when kneeling.
- Small weight and easy to transport.
- Resistant to oils and chemicals.
