

Safety terminal for fire extinguisher | Safety terminal

Reference : 521

Description :

Placed at the entrance of buildings, awareness in terms of safety and the environment will be much more pertinent and effective via a stylish presentation. - The upper strip can be customised thanks to the interchangeable documents to slide under the transparent side.

- On anodized grooved aluminium pole, circular steel baseplate Ø 325 mm

Benefits :

- This security terminal makes it possible to gather in the same place important information such as procedures, safety instructions but also the necessary equipment ensuring the protection and safety of individuals such as the provision of PPE (gloves, glasses, earplugs), a pharmacy box in case of superficial injury, fire extinguishers etc.

- Includes a space for 2 fire extinguishers. It is also equipped with a DOCAFLEX document holder with 10 A4 pockets and a signage strip.

- This space-saving aluminium bollard can be easily integrated near high-risk areas (workshops, machinery, electrical cabinets, etc.).
