

KANBAN batch launcher | BOXCART

Reference : 635

Description :

The KANBAN Batch issuer | LEANFLASH BOXCART which slides into the DYNLOT rail makes it possible to create batches with maximum capacity of 36 cards. It also has magnetic xing to be used with a workstation or communications table. The built-in card support receives the batch identification card for clear and rapid identification. - Use of colours or universal Kanban card

Benefits :

- Complementary product to the DYNLOT rail, the magnetic BOXCART allows you to create numerous batches for optimal Kanban planning.
- Position your Kanban cards vertically to reach a maximum capacity of 36 cards per box.
- For fast and accurate identification, an integrated card holder allows you to receive a batch identification card.
