

Barrier post | Barrier post

Reference : 15010

Description :

Cost-effective barrier post to easily prohibit access to a zone, mark out access or guide people in queues. Ideal to secure or mark out access paths, both inside and outside. It offers a rapid and economical solution, as it can be installed quickly and easily and can be adapted to all situations. - Post height: 910 mm

- Diameter 63 mm
- Weighted base: Ø 320 mm
- Barrier length 2000 mm, mounted on a roller mechanism built into the post
- 1 main post with barrier + 3 connecting posts

Benefits :

- Ideal to secure or mark out access paths
- A practical and modular solution to organise your spaces
- Solid and robust with a black metal post and a Ø 320 mm weighted base
