

Modular protection wall | Modular protection wall

Reference : 15558

Description :

Protect your employees from droplet projections with this modular PMMA transparent wall system. Installation is quick and immediate: the aluminum uprights are fixed to the tray using a plate and a tightening wheel, then the transparent walls are arranged between the uprights and fixed by four brackets and screws. Tightening. These COVID-19 protective walls are modular without any size limit, with the use of extension walls fixed at 180 ° or back at 90 °. Fixing bracket (code 120162) sold separately. Vertical upright in aluminum profile H 647 mm (code 160123) sold separately.

Benefits :

- Simple and very quick installation of the glass protection
- Limits direct contact: a bulwark against bacteria and viral diseases
- Reassure and protect both employees and customers alike
