

Hydroalcoholic Gel Pedal Dispenser Column | Hydroalcoholic gel column

Reference : 15559

Description :

The hydro-alcoholic gel column allows to deliver a portion of gel without any contact. By stepping on the pedal, the spout lets the liquid flow. This protects the employees. This gel dispenser is robust and durable. Recommended bottles of hydroalcoholic gel to go into the column should be 300 to 1000 mL.

Benefits :

- No contact - 100% mechanical
- The hydroalcoholic gel is delivered thanks to a foot pedal
- The distributor reduces the risk of spreading the virus and protects employee
