

Ergonomic workstation with electric height adjustment | QUALIPOST 2200 ERGO

Reference : 15642

Description :

The ergonomically adjustable |QUALIPOST 2200 ERGO height-adjustable is designed to provide better working conditions in workshops. Multi-functional, exible and customisable, this electric workstation quickly changes height and allows the operator to choose between several working positions: sitting, standing or sit-stand position. Adjusting as such his work surface to his liking via quick and easy settings can provide many advantages for the company and the users. This sit-stand workstation which has endless configurations makes tools and production parts available in an optimum manner, which substantially boosts productivity in the short term. For the operator, tasks are not as tedious, his daily performance thus improves. For the company, in the long term, there is a reduction in absenteeism linked to musculoskeletal disorders. - Easy and quick adjustment thanks to its remote control fixed under the tray. Possibility of memorizing 4 positions.

- Many compatible QUALIPOST 600 accessories.
- Fixing kit for rear panel on QUALIPOST 2200 ERGO sold separately (code 511219), to be ordered with the back panel.
- Fixing kit for drawer 531200, 531205 and 531206 on the frame sold separately (code 511220), to be ordered with the drawer
