

ESD LED directional lamp 24W | ESD LED LAMP 24W

Reference : 18236

Description :

The ESD directional light is both variable and functional thanks to its 3D articulated head. Ideal for precision work. This anti-static version is designed for use in environments sensitive to static electricity. - Its LED technology and color temperature (neutral white 5000k) allow you to obtain an extremely well-lit work surface.

- Membrane switch on the head of the luminaire for switching on / off and dimming.
- Spring-compensated arm, with 3D articulation at the head
- Black lacquered case
- Protection class IP 20, protection class 2
- Head dimensions: 398 x 136 x 33 mm/15.67 x 5.35 x 1.3 Inch
- Desktop power supply unit with integrated CEE 7/7 plug (2P + E plug)

Benefits :

- Robust black lacquered case
- Movable and balanced articulated arm, offering a very large radius of action
- Maintenance-free LED technology
- Exceptional light quality for an extremely well-lit work surface
- This anti-static version is designed for use in environments sensitive to static electricity.
