

Dynamic shelving | LEANDYNAMIC 500 FIFO

Reference : 15615

Description :

Dynamic shelving |LEANDYNAMIC 500 FIFO is the ideal ergonomic solution to reduce order preparation time. Dynamic shelving makes it possible to store goods in cardboard or plastic boxes in the immediate vicinity of the production line. The principle of operation is very simple: the goods are arranged in the corridor and move by gravity to the picking point. When the box or bin is removed, the next one takes its place. This system allows permanent availability of products on the facade. - Grooved anodized aluminium uprights for easy assembly of accessories.

- 1 to 3 levels of slightly inclined roller tracks.
- Recommended maximum load on fixed feet.
- Set of 4 castors with brake \varnothing 100 mm (code 690130) sold separately.

Benefits :

- Dynamic storage system ideal for reducing order preparation time.
- The grooved anodized aluminium structure is an additional asset for attaching accessories (shelves, shelves, file holders, signage banner, etc.).
- Quick assembly with universal connectors (no machining, no drilling).
- Several models are available.

Technical specifications :

Product Name	Dynamic shelving LEANDYNAMIC 500 FIFO
SKU	15615
Weight (kg)	1.000000
Application	Assemblage, Atelier, Conditionnement, Ergonomie, Industrie, Lean Manufacturing, Production, Qualité
