
Towing drawbar

Reference : 18603

Description :

The towing drawbar L 474 mm to be bolted in the grooves of the aluminum profile simplifies the movement of your bins on trolleys. Composition of the kit:- Front attachment: counter plate, spring and screws

- Rear attachment: pinette Ø 20 mm x L 90 mm, counter plate and screws

Benefits :

- Ideal support for manually linking and towing several mobile bin carriers in the form of a "small train" in order to fluidize the production line as part of Lean Manufacturing.
- The 474 mm long towing drawbar provides an ideal spacing between each trolley.
- Very easy to install in the grooves of the aluminum profiles.
