

Roller for goods transfer | Conveyor roller

Reference : 18651

Description :

Conveyor rollers are intended to ensure the transfer of boxes or products. PVC rollers allow smooth and quiet movement. Easily scalable according to your business constraints, which allows you to create conveyors quickly. These devices equipped with rollers allow effortless sliding (instead of carrying the container) to improve working conditions and QVT (Quality of Life at Work). - Silent PVC roller

- Diameter: 50 mm
- Center distance between rollers: 75 mm for plastic bin of minimum L 230 mm and 150 mm for plastic bin of minimum L 450 mm. The support of the body must be effective on three rollers minimum to ensure efficient movement.
- Fixing with 2 brackets on aluminum profile L 415 mm (code 690108) or L 647 mm (code 690102)
- Allowable load: 30 kilos for the roll L 423 mm and 10 kilos per roll L 655 mm.

Our research and development department is at your disposal to assist you with all your projects.

Benefits :

- Ensures a continuous and secure flow of goods between different storage areas
- Allowable load of 10 to 30 kg depending on the roller
- Available in 2 lengths, the roller can be used universally
- Ideal for building your dynamic shelving
