

Magnetic plate for monitoring CSR indicators | VISIOFLASH CSR - WATER

Reference : 18699

Description :

In a world where transparency and sustainability are essential, our VISIOFLASH dedicated to monitoring CSR performance allows your company to make a clear commitment to social responsibility. It helps you easily visualize your CSR objectives and make them a priority shared by all. Thanks to its visual indicators on key elements such as quality of life at work, water and energy consumption, waste recycling, CO2 rate and overall CSR rating, this product allows your team to monitor the evolution of your performance in real time. It improves internal communication, motivates teams and ensures that everyone remains aligned with your CSR objectives. Easy to attach to any magnetic surface, this visioflash becomes a central element to strengthen your CSR commitment and improve your company's performance on a daily basis.

Benefits :

- Visual monitoring of your water consumption over a 12-month period.
- Sensitize your employees to their responsibilities.
- Magnetic plate, write-felt quality, dry erasable.
- Easily interchangeable title in the transparent PVC holder.
