# SESA'PRINT SOFTWARE
## The easy way to print your KANBAN cards

64 mm

94 mm
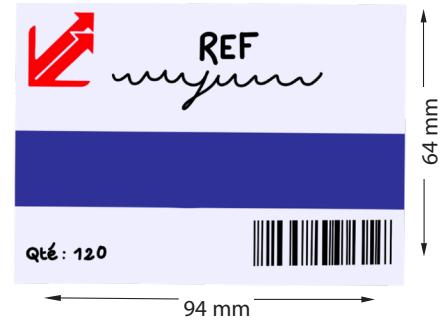

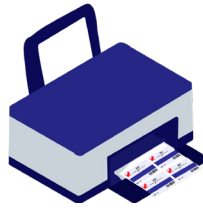

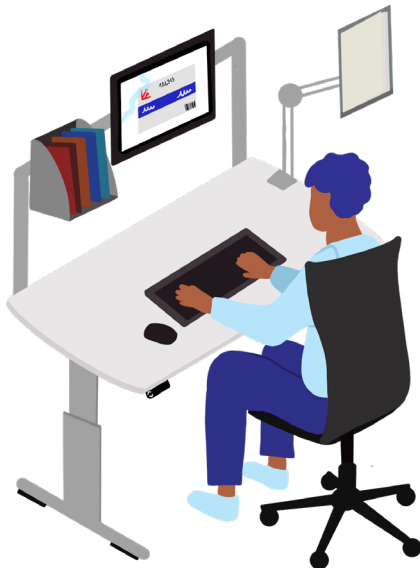

1 card = 1 unit or a pack of units

REF
Qté : 120

## CHARACTERISTICS

The easiness of an universal label creation tool |SESA'PRINT software:

- Use with Microsoft Word 2010
- Quick personalisation of labels
- Printing on A4/8.26 x 11.69 Inch format to be cut out or on adhesive labels

## Advantages

This tool (Word document) was designed to ease the creation of interchangeable titles to personalize for SESA SYSTEMS products. This development enables you to take advantage of our experience and thus to realize quickly and effectively your labels for cards. You will fill in one of the many models available with the following information.

- Identification information: Reference of the part, 1 photo and the number of parts per container,
- Information on the travel: Identification of the customer (destination) and of the supplier (origin), location to deposit the containers and location where to place released KANBAN cards,
- Management information: Number of KANBAN cards in circulation for the reference and the size of the launch batch for the reference. (This will make it possible to easily verify that the KANBAN loop in place participates in reducing stock).

## RANGE OF CARD HOLDERS:
