

## WORKSHOP STANDING SEAT BASIC

REGISTERED  
MODEL

The workshop standing seat distribute the weight of the body between the seat and the ground 50% evenly, thus promoting a dynamic position: the user can naturally straighten his legs and get up without effort.

- The height has a 350 mm/13.78 Inch adjustment
- The base does not impair movement
- The upright position preserves total mobility
- Polyurethane seat (washable, withstands oil, solvents, shock, and tool slashes)
- An original, elegant design
- Authorized weight load approximately 120 kg/264.55 lb

571114	WORKSHOP STANDING SEAT BASIC	3 days	In kit
571120	Height-adjustable footrest	3 days	In kit
