# E-MEETING
Interactive touch screen

CE

Visualize and present your content easily with the excellent interactive touch screens |E-MEETING interactive touch screens for crystal clear, high definition images. Interactive touch screens allow a speaker to present data to a large audience and interact with the presentation while standing beside the screen. Decision-making and analysis are facilitated by this tool.

- Our interactive screens are equipped with software that also allows you to write or draw directly on the screen, using a virtual marker, finger or stylus. In addition, the latest operating systems allow "multitouch": the user can rotate elements, enlarge or reduce the size of text or images, as can be done on a smartphone
- At the operating system level, most drivers are compatible with Microsoft Windows, Linux, and Mac OS X
- Supplied with remote control, power cable, HDMI cable, USB cable, stylus. 3 year warranty
- Available in 6 sizes: 55'', 65'', 75'', 86'', 98'' and 105''
- Usable software (via PC): SESAHUB, SESACOM, Microsoft Office, Google Workspace, Trello, Microsoft Whiteboard, etc.)
