

# YOUR VISUAL MANAGEMENT CHART

## SILK-SCREEN PRINTING

Custom fabrication

For more information, contact us

Give your communication scope by customizing your paintings without limits, while respecting the standards defined for your projects. To produce a silk-screen print, certain information information you need to know. The silkscreen template must be defined in computer format, including all column, box and text dimensions. The default font is Roboto (others on request). The usual colors are those of the SESA SYSTEMS graphic charter (others on request).

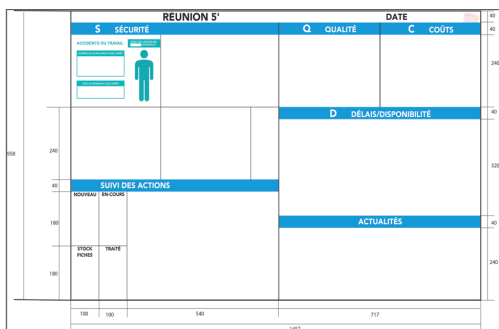

RProduction after approval by us.

VISUAL MANAGEMENT

### SILK-SCREEN PRINTING STEPS

#### 1. Sending of layout

Send your model with the silk-screen printing and medium dimensions.(Excel, PDF, Image, JPEG, AI, EPS...)

#### 2. Final Proof

Creation after a Final Proof (FP) approved by us.

#### 3. Layout fixing

The silk-screen is applied by us in our workshops.
