

KANBAN GAME

Group game

The game shows the fundamental principle of KANBAN.

- The relationship between the customer and the supplier is clear and makes it possible to reconcile needs and obligations.
- Reduced stocks are no longer a constraint, but an advantage.
- Production flexibility and the reliability of the means are two key parameters to meet demand.

Principle of the training

Average duration: 2.5 hours

Simulation of a relationship between a supplier and his customer to demystify the simple KANBAN principle, respecting First In / First Out (FIFO).

- 6 operating modes are already included in the game box (code 810051) and digital animation on USB key
