

# QUALIPOST 620B ERGO

## Electrical industrial workstation

WORKSHOP FURNITURE

The **electric workshop workstation** (QUALIPOST 620B ERGO) can be adjusted in height, providing optimum conditions for improving working conditions and performance in workshops.

The operator can adjust the height of his work surface and adopt the best working position according to his needs in order to reduce musculoskeletal disorders (MSDs). The ergonomics of this sit-stand workstation is maximised with the use of ergonomic seats and stools.

- Easy and quick adjustment thanks to its remote control fixed under the tray. Possibility of memorizing 4 positions.
- Many compatible QUALIPOST 600 accessories.
- Fixing kit for drawer 531200, 531205 and 531206 on the frame sold separately (code 511220), to be ordered with the drawer.
