

LED CONTROL LIGHT

Quality control LED light 220 V

WORKSHOP FURNITURE

This **LED control luminaire** is designed for visual control of the quality of fine parts, plastics, glass or PET bottles, specific to the food industry. This luminaire allows an ideal visual inspection and highlighting of defects or any other disturbing factor.

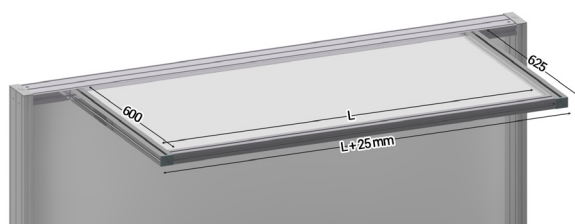

- Uniform, diffuse and homogeneous light
- Solid aluminum structure and diffusing PVC upper face
- Use in a horizontal, vertical position or placed on the workstation
- With light dimmer
- European standard electrical outlet

CODE	DESIGNATION	LEAD TIME	PACKING
551220	W 605 x D 350 x H 110 mm/23.82 x D 13.78 x H 4.33 inch on aluminium structure	10 days	Assembled

LED SKYLIGHT

LED lighting for workstations

The **LED skylight** with grooved anodized aluminum frame combines a modern rectangular design with a fixed luminous flux that is both soft and very radiant, like natural light. It provides high quality, homogeneous, glare-free light which improves working conditions.

- Low consumption LED without temperature rise
- Uniform and homogeneous brightness
- Light intensity adjustable using an integrated dimmer
- Do not use in humid environments
- European standard electrical outlet
